Announcing the availability of clinical and skill based workshops following the ARNA Conference to be held on Wednesday the 12 October at Epworth Hospital training facilities, Richmond.

2 workshops will be offered for limited numbers – they can be attended separately however, they are designed to complement each other and it will be worthwhile to attend both.

**Session 1. The Neurogenic Bladder in the Rehab Setting and Beyond (0800 – 1200)**
- A focus on the altered bladder relevant to rehabilitation but also applicable to any care setting where patients have neurological conditions.
- Will cover the neurogenic bladder and physiology, assessment and management options with key considerations for the post stroke and spinal cord injury patient.

**Session 2. Using the Bladder Scan - Procedure and Parameters for Decision-Making (1300 – 1630)**
- Gain practical knowledge and skills in assessment, nursing decision-making & diagnoses.
- An interactive program enabling practice at interpreting information and data for diagnoses and determining care

**Cost**
